## Who we are...

*eu can aid!* was set up by EU staff in 1968 to support micro-projects in developing countries and to awaken and foster the solidarity of EU staff with less privileged people in developing countries.

*eu can aid!* is run entirely on a voluntary basis, and funded through EU staff membership fees and donations.

## What we do...

We support small NGOs or local communities who do not have access to funding from major donors.

We finance micro-projects that produce immediate results and have long-lasting effects.

We enable local communities to take charge of their own development by improving their living conditions, both sustainably and with respect for the environment.

During our long history, we have supported hundreds of projects around the world, covering fields as diverse as education, agriculture, craftwork and vocational training, small industry, solar energy and water-supply projects, and many others.

## Our partner – SOLIDARITY of the EU Stagiaires

For some years, *eu can aid!* has been receiving support from the SOLIDARITY Sub-Committee, managed by the trainees of the EU Institutions, who work tirelessly to help us raise funds and promote our visibility.

## Some of our success stories...

We supported a project in Bolivia which aims to eradicate the extreme poverty among the impoverished women through a carpet production programme.

We provided funding for training in agricultural techniques, seeds, tools and livestock for orphans and women all living with HIV in the Democratic Republic of Congo.

For many poor communities in India, access to safe, clean drinking water is a luxury not all can afford. We funded a project providing 100 beneficiaries in 5 villages with water purifiers. A training session on water and sanitation issues is also planned.

Every child deserves the opportunity to gain a basic education. In this project, we provided funding to build, equip and maintain a school in Laos.
