You will find below a short description of the two projects selected by the NGOs for which you're invited to donate and organize fundraising campaigns: GIVE EUR-HOPE asbl and eu can aid aisbl

GIVE EUR-HOPE aims to raise €6,790 to support *Bio-B-Eco*, a Bulgarian humanitarian organization, in creating safe and secure harvesting conditions for some 200 herb and mushroom pickers in the Rhodope Mountains of Bulgaria.

This project involves restoring an abandoned forest shelter on the edge of their harvesting area in the municipality of Borino. In addition, a nearby forest campsite which has also been abandoned will be transformed into a "social campsite" for low-income families.

As for **EU CAN AID**, which operates in developing countries, the organization aims to raise approximately €7,500 to assist the *Sangrami Voluntary Organisation* in India, to provide training and the necessary resources for growing food crops and vegetables in five villages in Jaleswar (Balasore district) - an area with a high concentration of impoverished tribal populations.

Over a five-year period more than a thousand disadvantaged beneficiaries will receive home vegetable garden starter kits, along with training on how to use them, to help improve their family diets and incomes.

For **both** NGOs:
